SUMMARY

Experienced Full-Stack Software Engineer and Go Developer with over eight years of expertise in designing and implementing scalable, high-performance applications. Proficient in Full-Stack development, cloud-native technologies, and modern software development practices, ensuring the delivery of secure and robust systems. Adept at optimizing performance, enhancing system reliability, and integrating innovative solutions for complex workflows.

SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), Python, Go, SQL
- **Web Development:** HTML5, CSS3, React, React Native, Redux, Next.js, Tailwind CSS, Vue.js, Node.js, Nuxt.js
- **DevOps & Cloud:** CI/CD Pipelines, Docker, Kubernetes, AWS, Azure
- **Tools:** Git, RESTful APIs, Postman, Jest, Cypress, Figma
- **Database:** PostgreSQL, MongoDB, SQL Server, Firebase

PROFESSIONAL EXPERIENCE

NeuroNation

Full-Stack Software Engineer | Full-Remote | Apr 2020-Present

- Led the development of scalable web applications with React, Redux, and MongoDB.
- Engineered scalable back-end services with Node.js, Express.js, and PostgreSQL to handle complex workflows.
- Automated CI/CD workflows for testing, integration, and deployment.
- Utilized Docker and Kubernetes to ensure scalable, high-performance applications.
- Developed and maintained React Native applications to enhance mobile user experiences across platforms.
- Enhanced applications by integrating third-party APIs and custom modules.
- Designed and deployed scalable microservices with Go and Node.js, ensuring optimized system performance.

NextGen Solutions

Software Engineer | Full-Remote | Jul 2016-Mar 2020

- Developed interactive front-end applications using React, Next.js, and Tailwind CSS for seamless user experiences.
- Developed and maintained Python-based applications for back-end services and automation.
- Automated deployment workflows with AWS and Docker, improving release cycles.
- Built cross-platform mobile applications with React Native to ensure a seamless experience for iOS and Android users.
- Worked closely with clients to define requirements and deliver customized solutions efficiently.

EDUCATION

MSs in Computer Science

University of Donja Gorica
